Subject: RE: GWHS Data_ALL.xlsx

Carol,

See responses to your questions below:

EPA: Thanks again Steve (for data and WP).

DEC: No problem, we aim to please. And someday, we may call upon you to return the favor!

EPA: Regarding the May'14 work plan, would you say that the status is that NG is currently collecting data to determine the appropriate location for the recovery well?

DEC: That is correct. The Pre-design field work will aid in determining the location and the number of recovery wells for the OU3 offsite groundwater remediation component.

Steve

Carol,

Attached is the spread sheet from Northrop Grumman on the offsite VPB data to date under the OU3 offsite remedial program. Please note that this data is draft as it is subject to data validation. Please call if you have any questions.

Thanks,

Steve
